

Telephone

Model and describe what it means to whisper. Then, whisper a secret to the first child in line or a circle. Have them whisper to a friend until it reaches the end of the line. Offer the use of a toilet paper roll for children to whisper into if a child is not comfortable being approached by another.

Provide Support During Teamwork

“Be respectful of other’s space. Lean in to whisper but watch to make sure your friend feels comfortable. We will listen to see if they tell us we are too close.”
